MARKET LIGHTS

Enjoy your wedding, party, ceremony, or celebration under a beautiful light-filled canopy "ceiling". Market lights, also known as bistro lights or string-lights, are very versatile and are used in an array of events, including: Weddings, anniversary parties, corporate parties, birthday parties, receptions, holiday parties - pretty much any event. Turn your space, or venue, the ambiance it needs with elegant and classy market lights.

Market lights are quite versatile and can be hung on various anchor points or even using some of our custom-made poles/stands. We can hang them up against a wall, across a hall, from tree-to-tree - you name it. Our lights are also dimmable, giving you extra control over how much lighting you want for your particular event. We have tear-shaped and globe versions, both give off a nice, golden-amber warm glow.

All of our uplights are LEDs, which provide high light-output while generating very little heat, offers numerous color options, and are available in wired and wireless formats.

UPLIGHTING

If you are looking to add a warmer glow to your event space but candles and market lights are not enough, you may want to consider adding uplighting. Uplighting is a beautiful effect that is created by placing the lighting units on the floor pointed up (or, for different effect, you can pretty much have them point in various angles).

A few well-placed uplights can easily transform a room. A lot of events take place in gyms or in church centers that have very bright, overhead lights that are typically too cool and too stark for your event. You could turn off the overhead lights and add a few uplights to the space, along with a few candles and some string lights will wash the room in lovely glowing hues.

— LIGHTING EFFECTS —

We offer a handful of special-effect lighting - from fun fog machines to water effects, gobos, UV/black lights, strobes, and everything in between. Add some fun lighting effects to your next party or event.

PIPE & DRAPE | DECOR

MISCELLANEOUS DECOR

Our inventory is constantly expanding and changing so if there is something that you do not see on our website, please don't hesitate to call and ask!

PH: 303.578.5692

PIPE & DRAPE

Our draping can totally transform the look and feel of your event. The majority of the draping work we do are as backdrops, to cover walls, segment off large rooms, or to adjust the overall mood. You can add small, LED twinkle lights or even up-lighting, behind the draping to really make an impact.

Our primary drape fabric is a beautiful crushed taffeta, available in ivory or white, and is best suited for rooms up 14 feet - shorter areas create a nice draping "puddle" which looks quite elegant.

Delivery, installation, and strike is available as are DIY options as well.

AUDIO/SOUND

PROFESSIONAL AUDIO

Successful Events

We know that each and every event you have is important, no matter the size or the budget, and we will be ecstatic to make your events as successful as possible.

We have the capabilities and know-how to deliver and install your audio equipment and we also offer easy-to-setup, easy-to-operate DIY systems that help you stay in budget.

EVOLVING INVENTORY

Technology | Sound Equipment

As a former music major and with over 20 years of audio-engineering experience, our CEO, Jacob Bieber is always updating our audio rental equipment. From wireless features to bluetooth capabilities to fully batter-powered options, we've got you covered! Looking for something you don't see on our site, please ask.
